

FOLDEL HEALTHCARE SERVICES

Mission

Our mission is to assist clients who wish to continue to enjoy the privacy and comfort of their own home as well as their wellness for as long as possible while still maintaining their independence.

Foremost among other advantages to our services is the quality of our care. Our aim is to maintain a BALANCED and MEANINGFUL environment in which all clients and their families can thrive with confidence in our services and resources and dedication to clients' wellbeing.

Home Health Services Available

Skilled Nursing: RNs & LPNs experienced in cardiac, medical/surgical, oncology, pulmonary, endocrinology, neurological and urological nursing care; ostomy and wound care; and patient and family training. We also work with other healthcare personnel to ensure that all services, concurrent therapies, laboratory services, medical equipment and supplies are fully coordinated, thereby providing consistent and focused care.

Home Health Aide: CNA - Certified aides are available around the clock to assist with bathing, hygiene tasks, bed linen changes, sitting and other personal needs that are supervised by a registered nurse.

Physical Therapy: Licensed PTs provide specialized programs for improved ambulation and gait training; prosthesis and medical equipment use training, increased mobility and prescribed therapeutic programs.

Occupational Therapy: OT's provide adaptive equipment, assessment and training, cognitive/perceptual and sensory motor activities, reality orientation and visual perception training, and assist individuals in increasing and maintaining independence in activities of daily living.

Speech Therapy: Licensed ST's - assist patients with a program of speech and language instruction to improve and restore communicative skills lost due to illness, accidents or developmental problems.

Medical Social Work: Licensed MSW's - provide counseling and assistance with problems related to care in the home, and provide information and support in obtaining essential community and economic resources.

Sitter/Companion: FOLDEL Home Healthcare representatives will coordinate with the patient and family to provide companionship, household tasks, meal preparation & serving, escort and documentation services.

Recruiting for Retention

A critical aspect of our recruiting process enlists health care professionals with an eye to their staying power in the settings in which we place them. Retention is a primary value at the front-end of the recruitment process highlighting our emphasis on the stability of the FOLDEL Healthcare Services professionals we place and is a contributing factor in the quality of care.

Recruitment is keyed to retention in our approach so that retention efforts on the back-end are simplified.
